

WIREPAS MESH

FW 3.0.0

1. MAIN FEATURE:

Integration of WIREPAS V5 stack.

2. REASON FOR PRODUCT CHANGE

By this new introduction, ELA Innovation could offer its complete range of WIREPAS based products, integrated the latest V5 stack offered by our partner WIREPAS so that all our clients having defined their complete solution architecture on this version could benefit of our industrial wireless beacons and sensors.

3. IDENTIFICATION

This new version is identified as **WIREPAS MESH 3.0.0**

5. SCHEDULE

Production: All the products listed below can be ordered from **September 01st, 2023**.

Beta version: Limited quantities required for testing will be available from **June 01st, 2023**. Please contact our sales department if you wish to order your products directly in this version. All the new products listed below will be orderable in a β test version from the 01st of June 2023 up to the 01st of September 2023.

During this period, the suffix “-beta” will be added to the new references.

After this period of time, the new firmware 3.0.0 will be fully released after having integrated software corrections if needed. From this date, the suffix “-beta” will be deleted.

During this period, the user guide will not be available. Please, contact our technical support for more technical information.

There is no **Last Time Buy** date for ordering products with the old version up to now. It means that our clients could order all our WIREPAS MESH products based upon our firmware V2.X.X.
